

A photograph of a long row of refrigerated glass display cases in a store. The cases are filled with various Coca-Cola products, including cans and bottles. The lighting is bright, highlighting the products. The text 'close the case on high energy costs' is overlaid on the left side of the image.

Up to 40% energy saving with our Close the Case Doors

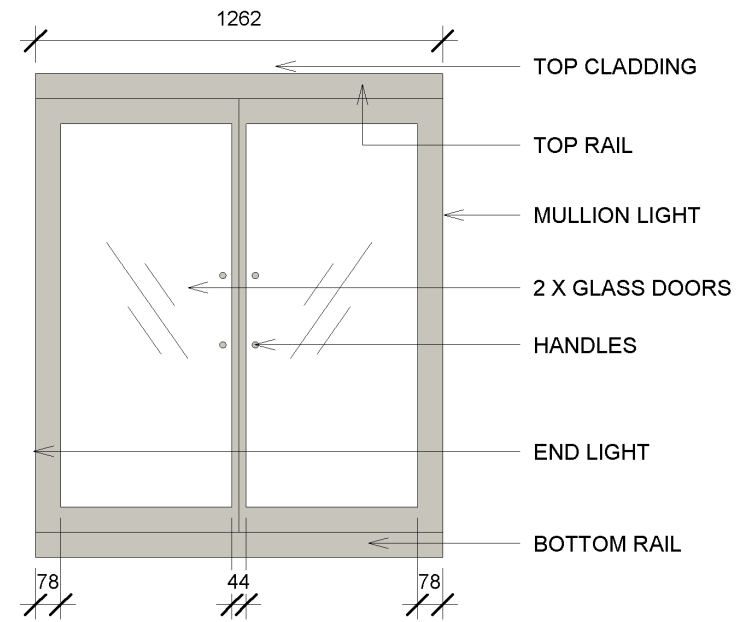

Up to 40% energy saving with our Close the Case Glass Doors

Cost savings through a close the case initiative across various stores

STORE SIZE	ESTIMATE NUMBER OF 12FT CASES	ESTIMATE NUMBER OF 4' SECTIONS	ESTIMATE ANNUAL SAVING	ESTIMATE INVESTMENT (EXCLUDING LABOUR)
SMALL	4	16	R73 408	R137 280
MEDIUM	12	48	R220 224	R411 840
LARGE	20	80	R367 040	R686 400

*Estimate numbers for presentation purposes only. Actuals to be confirmed

- Our 40% estimated energy savings are based on actual store implementations thus far. Each store is unique and this saving may fluctuate from store to store. We believe this to be a good base case assumption that should be validated in a pilot phase roll out.
- Using R1.31 / kwh, we estimate R4,588 savings per annum per 4ft section that we close and upgrade to LED.
- Our estimated material cost (ex installation and transport) per non heated glass 4ft section is R8,580 including LED upgrade. (PLEASE NOTE – in areas with high RH and high store temperatures we can install a heated glass).
- Retailers who have proceeded with these initiatives have also reported improved product shelf life.

Introducing Retrofit
Glass Doors that
pay back in energy
conserved

The benefits of using Insulated Structures Retrofit glass doors

'CLOSE THE CASE' ON HIGH ENERGY COSTS. INTRODUCING RETROFIT GLASS DOORS THAT PAY BACK IN ENERGY CONSERVED

- Reduced Energy Consumption
- Extended Product Shelf Life
- Double Glazed Argon Filled Void for Better Insulation
- Optimal Product Temperature
- Glass Doors have Optional Mullion Lights
- Handles Included
- Up to 40% Energy Saving
- Solution for New Cabinets or Retro Fitted on Existing Cabinets
- Doors are Spring Loaded
- Less Cold Air Spillage – Warmer aisles
- Proudly South African
